

Financial Supplement

Through the Third Quarter Ended
September 30, 2026 (unaudited)

Principal Financial Group, Inc.

Reportable Segments

RETIREMENT AND INCOME SOLUTIONS

Provides retirement and related financial products and services primarily to businesses, their employees, and other individuals including workplace savings and retirement solutions, banking, trust and custodial services, individual variable annuities, pension risk transfer, investment only, and individual fixed annuities.

PRINCIPAL ASSET MANAGEMENT

Provides global investment solutions to institutional, retirement, retail, and high net worth investors in the U.S. and select emerging markets. This segment is organized into:

- **Investment Management**, provides public, multi-asset, and private market capabilities across all asset classes, including equity, fixed income, real estate and alternatives, to serve a breadth of client investment objectives.
- **International Pension**, provides long-term savings and retirement solutions in Asia and Latin America. Products include pension accumulation and income annuities.

BENEFITS AND PROTECTION

Focuses on solutions for small to mid-sized businesses and their employees. The segment is organized into:

- **Specialty Benefits**, provides group dental, group life insurance, group disability (including short-term disability, long-term disability and paid family and medical leave), supplemental health products (including vision, critical illness, accident and hospital indemnity), individual disability insurance.
- **Life Insurance**, provides life insurance, with a focus on the business market customer, including universal and variable universal life insurance (including indexed universal life) and traditional life insurance (including term life insurance). All the remaining customers are part of the legacy life block of business, including universal and variable universal life insurance (including indexed universal life) and traditional life insurance (including participating whole life, adjustable life products and term life insurance).

CORPORATE

Manages the assets representing capital that has not been allocated to any other segment. Financial results of the Corporate segment primarily reflect our financing activities (including financing costs), income on capital not allocated to other segments, inter-segment eliminations, income tax risks and certain income, expenses and other adjustments not allocated to the segments based on the nature of such items. Results of our affiliated distribution businesses and our exited group medical and long-term care insurance businesses are reported in this segment. Affiliated distribution includes our retail broker-dealer and registered investment advisor.

Exchange Listing

Common stock of the Principal Financial Group, Inc. is traded on Nasdaq under the ticker symbol "PFG."

Exited Business

We reinsure our U.S. retail fixed annuity and universal life with secondary guarantee (“ULSG”) blocks of business (“exited business”) via coinsurance with funds withheld (“Talcott Reinsurance Transaction”). We also have other exited or divested businesses.

Use of non-GAAP financial measures

A non-GAAP financial measure is defined as a numerical measure of our performance, financial position, or cash flows that includes adjustments from a comparable financial measure presented in accordance with U.S. GAAP.

We use a number of non-GAAP financial measures that management believes are useful to investors because they illustrate the performance of our normal, ongoing operations, which is important in understanding and evaluating our financial condition and results of operations. While such measures are consistent with measures utilized by investors to evaluate performance, they are not a substitute for U.S. GAAP financial measures. Therefore, we have provided reconciliations of the non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures. See “Non-GAAP Financial Measures Reconciliations” located on pages 26-32. We adjust U.S. GAAP financial measures for items not directly related to ongoing operations. However, it is possible that these adjusting items have occurred in the past and could recur in the future. Management also uses non-GAAP financial measures for goal setting, as a basis in determining employee and senior management awards and compensation, and to evaluate performance on a basis comparable to that used by securities analysts. We also use a variety of other operational measures that do not have U.S. GAAP counterparts, and therefore do not fit the definition of non-GAAP financial measures. Assets under management is an example of an operational measure that is not considered a non-GAAP financial measure.

Principal Financial Group, Inc.

Definitions

Account values: includes the net balances that customers have accumulated within their account, along with future policy benefits for retirement payout products.

Assets under administration: includes assets under management and other assets for which we earn a fee for providing administrative services such as recordkeeping, custodial or servicing.

Assets under management: includes client assets for which we provide investment management services and earn a fee for providing that service. This includes assets of institutional clients, assets within Principal branded funds (or other proprietary funds), including assets managed by sub-advisors hired by Principal, and advisory assets held in model portfolios where we earn a management fee. In addition, assets under management (AUM) include certain assets on our consolidated balance sheets for which we provide investment management services, such as the assets of the general account, or investments, cash, or related items where we earn a return.

AUM includes 100% of the AUM from consolidated subsidiaries and certain unconsolidated subsidiaries. Unconsolidated subsidiaries consist of a 25% economic interest in Brasilprev Seguros e Previdência S.A. (Brasilprev) (with 50.01% ownership of common stock) and a 60% interest in Principal Asset Management Berhad in Malaysia with a presence in Southeast Asia countries.

China AUM includes a 25% interest in CCB Principal Asset Management Co., Ltd. (CCBPAM), which includes AUM from its 100% owned subsidiary CCBPAM Capital, and a 17.65% interest in CCB Pension Management Co, Ltd. (CCBP) AUM, which are not included in our reported AUM.

Investment performance: represents the percentage of Principal actively managed mutual funds, exchange traded funds (ETFs), insurance separate accounts, and collective investment trusts (CITs) in the top two Morningstar quartiles. Excludes Money Market, Stable Value, Liability Driven Investment (short, intermediate, and extended duration), Hedge Fund Separate Account, and U.S. Property Separate Account.

GAAP net revenue: total revenues less: benefits, claims and settlement expenses; liability for future policy benefits remeasurement (gain) loss; market risk benefit remeasurement (gain) loss; and dividends to policyholders.

Net revenue: segment operating revenues less: benefits, claims and settlement expenses; liability for future policy benefits remeasurement (gain) loss; market risk benefit remeasurement (gain) loss; and dividends to policyholders, which is non-GAAP at a total Principal Financial Group, Inc. level.

Premium and fees: premiums and other considerations plus fees and other revenues.

Pre-tax operating earnings: operating earnings before income taxes and after noncontrolling interest.

Pre-tax operating earnings, adjusted for noncontrolling interest: operating revenues less total expenses.

Operating revenues less pass-through expenses: The company has determined this measure is more representative of underlying operating revenues growth for Investment Management as it removes commissions and other expenses that are collected through fee revenue and passed through expenses with no impact to pre-tax operating earnings.

Operating margin is calculated as follows:

Retirement and Income Solutions: pre-tax operating earnings divided by net revenue

Investment Management: pre-tax operating earnings, adjusted for noncontrolling interest, divided by operating revenues less pass through expenses

International Pension: pre-tax operating earnings divided by net revenue

Benefits and Protection: pre-tax operating earnings divided by premium and fees

Non-GAAP operating margin is calculated as follows for Principal Financial Group, Inc.: non-GAAP pre-tax operating earnings divided by non-GAAP net revenue

^ Amounts include gains/losses that have yet to be monetized (i.e., mark-to-market adjustments, impairments of securities that have yet to be sold, etc.).

* This is a non-GAAP financial measure. See non-GAAP financial measure reconciliations on pages 26-32.

(1) Amounts include credit impairments as well as gains or losses from sales of fixed maturity securities to reduce credit risk.

(2) Investment income on sponsored investment funds is included in Net realized capital gains (losses) – Other for non-GAAP operating earnings.

(3) Calculated using a simple average of asset classes at the beginning and end of the reporting period.

* This is a non-GAAP financial measure.

(1) Beginning in 3Q26, non-GAAP operating earnings excludes the impacts of the actuarial assumption review.

(2) When a net loss is reported, our basic weighted-average shares are used to calculate diluted earnings per share, as dilutive shares would have an antidilutive effect and result in a lower loss per share.
