Financial Supplement

Principal Financial Group, Inc.

Reportable Segments

Retirement and Income Solutions

Provides retirement and related financial products and services primarily to businesses, their employees and other individuals. The segment is organized into:

- Retirement and Income Solutions Fee, which includes full service accumulation, trust and custodial services, individual variable annuities, and all of the Institutional Retirement & Trust (IRT) integration and acquisition expenses.
- **Retirement and Income Solutions Spread,** which includes individual fixed annuities, investment only, pension risk transfer and banking services.

Principal Global Investors

Provides asset management services using focused investment teams and U.S. and global fund platforms to deliver diverse investment capabilities including equity, fixed income, real estate and other alternative investment strategies to clients. Other capabilities include asset allocation, stable value management and other structured investment strategies. Services are provided to clients in our asset accumulation business, in our insurance operations, to our Corporate segment, and for third-party clients.

Principal Internatio<u>nal</u>

Has operations in Latin America (Brazil, Chile and Mexico) and Asia (China, Hong Kong Special Administrative Region, India and Southeast Asia). We focus on locations with large middle classes, favorable demographics and growing long-term savings, ideally with voluntary or mandatory pension markets. We entered these locations through acquisitions, start-up operations and joint ventures.

U.S. Insurance Solutions

Focuses on solutions for individuals and small-to-medium sized businesses and their employees. The segment is organized into:

- Specialty Benefits insurance, which provides group dental and vision insurance, individual disability insurance, group disability insurance (including short-term disability, long-term disability, critical illness, paid family and medical leave and accident), group life insurance and non-medical fee-for-service claims administration; and
- Individual Life insurance, which provides universal and variable universal life insurance (including indexed universal life) and traditional life insurance (including participating whole life, adjustable life products and non-participating term life insurance).

Corporate

Manages the assets representing capital that has not been allocated to any other segment. Financial results of the Corporate segment primarily reflect our financing activities (including financing costs), income on capital not allocated to other segments, inter segment eliminations, income tax risks and certain income, expenses and other adjustments not allocated to the segments based on the nature of such items. Results of Principal Securities, Inc., our retail broker-dealer and registered investment advisor; RobustWealth, our financial technology company; and our exited group medical and long-term care insurance businesses are reported in this segment.

Exchange Listing

Common stock of the Principal Financial Group, Inc. is traded on Nasdaq under the ticker symbol "PFG."

Use of non-GAAP financial measures

A non-GAAP financial measure is defined as a numerical measure of our performance, financial position, or cash flows that includes adjustments from a comparable financial measure presented in accordance with U.S. GAAP.

We use a number of non-GAAP financial measures that management believes are useful to investors because they illustrate the performance of our normal, ongoing operations, which is important in understanding and evaluating our financial condition and results of operations. While such measures are also consistent with measures utilized by investors to evaluate performance, they are not a substitute for U.S. GAAP financial measures. Therefore, we have provided reconciliations of the non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures. See "Non-GAAP Financial Measures Reconciliations" located on pages 29-31. We adjust U.S. GAAP financial measures for items not directly related to ongoing operations. However, it is possible that these adjusting items have occurred in the past and could recur in the future. Management also uses non-GAAP financial measures for goal setting, as a basis in determining employee and senior management awards and compensation, and to evaluate performance on a basis comparable to that used by securities analysts.

We also use a variety of other operational measures that do not have U.S. GAAP counterparts, and therefore do not fit the definition of non-GAAP financial measures. Assets under management is an example of an operational measure that is not considered a non-GAAP financial measure.

Definitions:

Investment performance represents the percentage of Principal actively managed mutual funds, exchange traded funds (ETFs), insurance separate accounts, and collective investment trusts (CITs) in the top two Morningstar quartiles. Excludes Money Market, Stable Value, Liability Driven Investment, Hedge Fund Separate Account, and US Property Separate Account.

Assets under administration includes assets under management and other assets for which we earn a fee for providing administrative services such as recordkeeping, custodial or servicing.

Assets under management includes client assets for which we provide investment management services and earn a fee for providing that service. This includes assets of institutional clients, assets within Principal branded funds (or other proprietary funds), including assets managed by sub-advisors hired by Principal, and advisory assets held in model portfolios where we earn a management fee. In addition, assets under management include certain assets on our consolidated balance sheets for which we provide investment management services and recognize management fees, such as the assets of the general account, or investments, cash, or related items where we earn a return. Beginning 40 2021, our definition of assets under management changed to exclude assets managed by third parties. Prior periods have been recast to reflect the updated definition.

⁽¹⁾ During 1Q22, we executed an accelerated share repurchase agreement.

<u>Definitions:</u>

Net revenue: operating revenues less benefits, claims and settlement expenses less dividends to policyholders. See pages 8-9 for additional detail. Pre-tax operating earnings: operating earnings before income taxes and after noncontrolling interest.

Pre-tax return on net revenue: pre-tax operating earnings divided by net revenue.

Pre-tax operating earnings, adjusted for noncontrolling interest: operating revenues less total expenses. See page 9 for additional detail. Pre-tax return on operating revenues less pass-through expenses: pre-tax operating earnings, adjusted for noncontrolling interest divided by operating revenues less pass-through expenses. The company has determined this measure is more representative of underlying operating revenues growth for PGI as it removes commissions and other expenses that are collected through fee revenue and passed through expenses with no impact to pre-tax operating earnings.

Combined net revenue: net revenue for all Principal International companies at 100% less pass-through commissions. The company has determined combined net revenue (at PFG share) is more representative of underlying net revenue growth for Principal International as it reflects our proportionate share of consolidated and equity method subsidiaries. In addition, using this net revenue metric provides a more meaningful representation of our profit margins.

Premium and fees: premiums and other considerations plus fees and other revenues. See page 11 for additional detail. Pre-tax return on premium and fees: pre-tax operating earnings divided by premium and fees.

The consolidated income statement is presented on a U.S. GAAP basis. However, the measure of profitability for our operating segments is pre-tax operating earnings, as shown on the segment pre-tax operating earnings statements on pages 8-12. A reconciliation of consolidated GAAP income before income taxes to segment pre-tax operating earnings is provided on page 7.

[~] Principal International financial results are impacted by fluctuations of the foreign currency to U.S. dollar exchange rates for the countries in which we have operations. Ending AUM of our foreign businesses is translated into U.S. dollar equivalents using spot currency exchange rates in effect on the last day of the reporting period. Pre-tax operating earnings, net revenue, net cash flow, and investment performance for our foreign businesses are translated into U.S. dollar equivalents using the average currency exchange rates for the reporting period. The average currency exchange rates represent monthly averages.

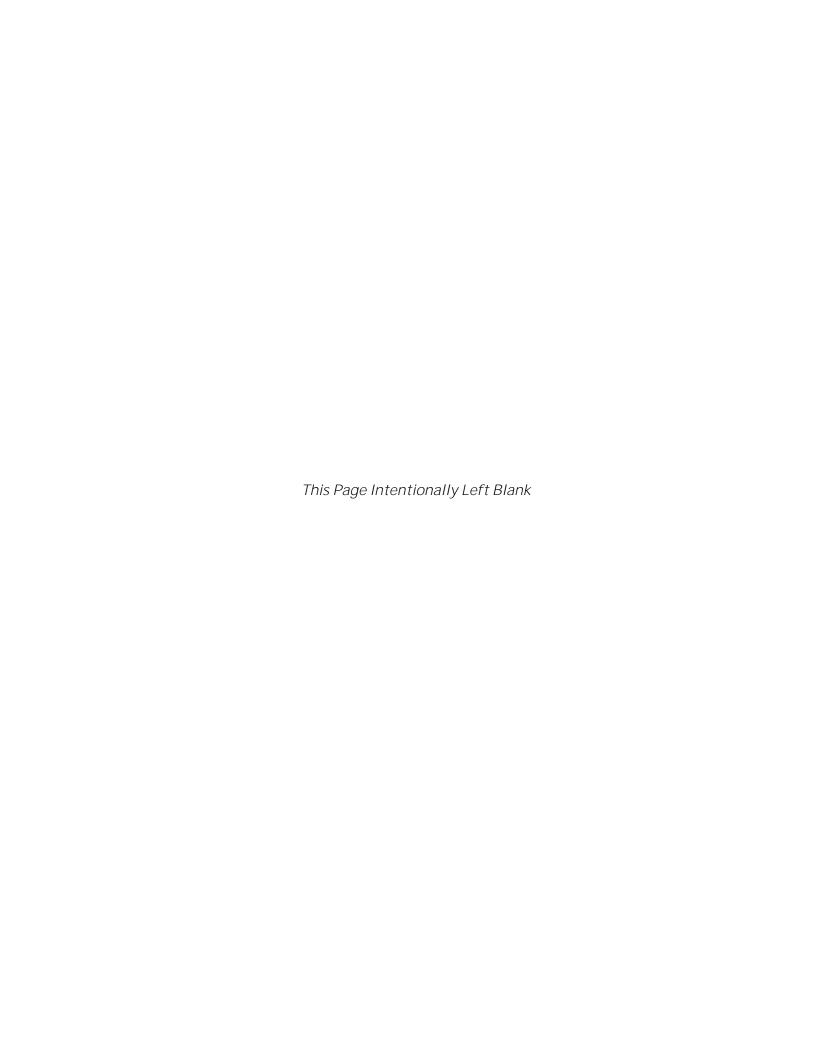

⁽¹⁾ The exchange rates for China are on a one-month lag for all periods.
